

## REPORT TERMS AND CONDITIONS

*AORA recommends that an AORA customer includes in their agreement with a client being assessed the clauses below or clauses with similar effect.*

### **What we do and what to expect**

You would like us to make an assessment of your prospects for British nationality. This will take into consideration the history of you and your ancestors to the extent that it appears relevant to us and to the extent of the information that we received before the assessment.

Our Nationality Report includes the following:

1. Details of any claim we found to British nationality or right of abode.
2. A Status Trace setting out your nationality history and where relevant your ancestors.
3. Brief comments on UK immigration alternatives to citizenship that are apparent to us
4. Comments on the likely position of your minor children to the extent it relies on you.
5. A proposed course of action.

All the above is based on the information we have received from you.

The report service does not include:

1. searching for records or obtaining evidence of events,
2. discussion or explanation of laws affecting nationality or events which happened (or did not happen) beyond what is stated in the report, or
3. preparation or submission of any application.

By entering into this agreement, you declare that to the best of your knowledge that any information you will provide (or have provided) to us is accurate and complete, except where stated otherwise. If any further information that we request is not supplied within four weeks of the date of payment, then we will make assumptions that we consider reasonable based on our knowledge and experience.

You confirm that you understand that the outcome of the report may be positive or negative. At this date, we do not have a view of the likely outcome for your particular case. Historically most reports have a negative outcome. The outcome may be contingent on assumptions or approximate information. Any further information or corrections of a material nature received by us within 4 weeks of the date of the report will be considered and an updated report supplied for [no][an] extra charge.
